

Creating local places that grow over time

**SYDNEY METRO
NORTHWEST
PLACES**

Landcom is committed to building a sense of place and community by providing pocket parks, public art, community events and more.

^ Tallawong Pocket Park

Placemaking

By activating the public spaces around the Metro stations, we hope to help create a sense of neighbourhood and belonging while the actual developments are created over time. Our activations will include art, music, food, play, performances and community events.

We have created an 'activation space' (temporary pocket park pictured) at Tallawong, with another to come at Bella Vista Metro stations later in 2019. More permanent parks and art installations will evolve over time.

Public art

Our vision is for artworks that are memorable, distinct and powerful, providing an enhanced experience of place. Landcom sourced a range of artists to activate the places surrounding Northwest stations with contemporary, bold and innovative artwork in order to inspire, invigorate and announce Northwest Places. Large-scale artworks across site hoardings at Tallawong, Kellyville, Bella Vista, Hills Showground and Cherrybrook have been installed for the community to enjoy.

Local events

There will be a range of events and activities for local communities and businesses to enjoy in these new spaces. A range of mobile food and drink vendors will also operate in the pocket parks.
